

Dear Fellow Rotarians,
Another very proud moment for us all.

Rotarian Claude who has been one of our Primary Contacts in the Haiti disasters has been designated as the National Coordinator of the Health Commission they are putting in place. That is a huge responsibility that he accepted at the insistence of the President Preval.

Congratulations are due to him. Please do not email him any congratulatory messages at this time as his email is very busy and he is trying to get things done

Congrats Claude

Richard McCombe
