

I called Mark Dyer, US Logistics Manager for ShelterBox USA this morning and told him of the situation outlined in Dick's email. He said that while Veronica Miller, Director, ShelterBox USA had suggested that I speak with him, he was not the one who could solve our problem. I told him if this were not resolved quickly and to our satisfaction it could have a serious impact on our relationship and at the present moment that relationship was headed into the toilet. He said I needed to speak to ShelterBox operations in the UK. I told him that I had two prior conversations with Lasse Petersen the day after the quake and the following day and asked if Lasse Petersen was back in the UK or still in Haiti. I called (Skype) ShelterBox UK operations and my call was forwarded to the voice mail of John Leach, Operations manager. I am awaiting his return call. I also spoke with RIDE John Smarge and he indicated he would be talking to the people at ShelterBox USA as they are in his district.

I will keep you posted.
