

John et al

I urgently need your help. Shelter Box uses the global Rotary Brand to raise funds to put the Shelter Boxes together and they also use Rotary's enormous Humanitarian Brand power to get the recognition they need to raise the funds necessary to do it. Having said that the situation in Haiti is deplorable for the following reason.

Both PRID Barry and I have been trying to get some sort of response to a simple request from Shelter Box. We need Shelter Boxes that can be allocated by Rotarians on the ground. I got off the phone a few minutes ago with Dr. Claude Surena who is the Coordinator of the Haiti Health Commission, the highest ranking health official in the country of Haiti and he reports directly to the President on ALL health issues on health for the relief of the Haitien people. He urgently requested AGAIN that we help him out. We have 5 Rotary Clubs at the core of the quake that have been all but destroyed. Their homes and businesses are gone. They are living on the street.

PLEASE speak to someone to get 100 Shelter Boxes allocated to Dr. Claude Surena and to the Rotarians in the affected area. This is urgent. We need these Boxes so the Rotarian that are desperately trying to save lives and their country have somewhere to sleep at night. We need to help ourselves so we can help other!

In the name of the Family or Rotary please help me with this

Fellow Classmates, Please contact anyone you know that can help with this
